### Speakeasy Event Add-On

During the height of Prohibition, if your team wanted to gather for drinks after work they would have to find the local speakeasy.

LetsVidya is ready to transport your team back to the 1920's and give them the full speakeasy experience virtually.

Every part of the event, from registration, to all of our communication, to actually logging on and getting into the right room, is designed around being cryptic and secretive (in a fun way).

The speakeasy add on is sure to take your team's experience to the next level.

> **Just \$500 (plus the combined cost of 2+ events)**
